- P.U.W.E.R
- Question and answers
- Woodworking machines general
- Specific information on circular saws
- Modern features
- Practical set up and demonstration, cleaning and Maintenance
- Practical assessment
- Questions and answer session

It would be advisable to use portable power tools either supplied by the operating company or hired from the one source. This would provide consistent training with tooling already used on site.

It will be the responsibility of the individual or company to supply the appropriate tooling on the day of the course and allow the training provider access to manufacturers information at least one week before the course delivery date.
